

Natural Rejuvenation DVD

The Science of Everlasting Youth

The **Natural Rejuvenation DVD** is a natural, powerful and effective approach to rejuvenation that uses our own inner light brain emissions, which are activated by specially designed visual images of light combined with special sounds and subliminal suggestions given to the brain's servo-mechanism, which automatically follows the suggestions to reset the '*Hypophysis*' (a tiny gland which is the body's '*master switch*' of the aging process) or '*the inner time clock*' giving it directions to run in reverse and activate the '*juvene d'celles*' or Mother youth cells, which then, following the subliminal suggestions given in **The Natural Rejuvenation DVD**, regenerate themselves at the perfect rate for health and rejuvenation over and over again.

This process and its benefits have been immediately felt in those who have practiced **The Natural Rejuvenation DVD** and become indeed biologically younger, so if you want to look great and feel good and free of stress, try **The Natural Rejuvenation DVD**, you will like it!

Dr. Whelan, principal investigator of NASA's study says:

"What can be seen so far in laboratory cell cultures points to one conclusion, the near-infrared and infrared light emitted by these LEDs seems to be perfect for increasing energy inside cells."

Dr. Charles Muses, a mathematician, philosopher, computer scientist and author of '*Destiny and Control in Human Systems*' discovered that the Egyptians had developed a technology in which tones, lights, and an as-yet unidentified substance were used to '*open a rusty valve*' in the brain and trigger the production of large pulses of hormones similar to the ocdysone (ocdydstorone) produced by larval forms of insects, which allows the adult form emerge. In this way they would allow the gestation or mutation of non-molecular body - a new skin - that would allow the survival of consciousness beyond physical death. These ancient techniques have been used by Dame De Saint-Simone in **The Natural Rejuvenation DVD**, which is the result of De Saint-Simone's knowledge of this ancient civilization's technology and of her state of the art extensive research on the subject, combined with her expert knowledge of the mind as a certified Hypno-Analyst after more than 30 years of using the mind in her practice to successfully heal naturally various psychosomatic conditions, and how to use it effectively and to our best advantage to rejuvenate our physical body.

The Egyptians had developed a technology in which tones, lights, and an as-yet unidentified substance are used to 'open a rusty valve' or trigger the production of large pulses of hormones which would allow gestation

or mutation of non-molecular body – a new skin – that would allow the survival of consciousness beyond physical death.”

SCIENTIFIC DATA CORROBORATES THIS METHOD

Prior to the advent of intensive DNA research, most people believed that there was no way to regulate this *'master switch'*. Dame De Saint-Simone refused to accept these limits and based her work in the ancient knowledge of the Egyptians, the Pavlovian theory that says: *'There is no tissue in the body that is not affected by thought'*, which in our days has been conclusively confirmed by Quantum Science, and on the accuracy of our brain's servo-mechanism, the most magnificent computer ever created.

Recently anti-aging developments at leading research institutes such as The Mayo Clinic, John Hopkins and Harvard Medical School, have confirmed the fact that *'the inner time-clock'* can be regulated, slowed down, or better yet, reversed.

Science imitates our own natural healing process with LED light technology. Light-emitting diodes otherwise known as LEDs were originally developed by NASA Shuttle plant growth experiments - studies have shown that skin cells are revitalized and may grow 150-200 percent faster when exposed to certain LED light wavelengths, thus speeding up the healing process in outer space when astronauts are injured. Astronauts use it to help heal flesh wounds they receive while circling the earth.

The difference being that they use artificial light, while **The Natural Rejuvenation DVD** uses our natural body's light emissions and our natural brain servo-mechanisms to awaken the cells natural process of rejuvenation, which is activated as one watches the Natural Rejuvenation DVD. The effects are extraordinary!

HEALTH, BEAUTY AND WELL BEING

There are as many reasons to want to look young and beautiful, as there are people in the world; whatever your personal reason are, the key to success is to find *'That Method'* that will give you the results you are looking for. And, if when you find it, you discover that it is natural, safe and helps you to be stress-free, you have certainly found a Treasure! The good news is that the search is over, the **NATURAL REJUVENATION DVD** will do just that when it is faithfully practiced. All you have to do is to follow its instructions exactly and make a practice of watching the DVD daily, you determine for how long you watch it, you can watch the whole DVD, or fifteen minutes if you don't have the time, the point is to make of it a daily practice.

If you do so it will make rejuvenation a reality in every single cell of your brain and body, and revitalize and rejuvenate you while you just relax. This means that now, instead of you being a helpless victim of time, you will start immediately feeling and

looking good while reversing the time-clock and ultimately become triumphant over the aging process.

WHAT IS NATURAL REJUVENATION? WAS THE FOUNTAIN OF YOUTH A LEGEND OR A NATURAL REJUVENATION SYSTEM WRITTEN IN OUR BIOLOGY?

Ancient Legends speak about the capacity of some human beings, who found a certain Magical Fountain of Youth, to renew themselves.

Are they true?

'The Lady of the Lake lived upon a marvelous island where no one aged, where all was gentle and bright..'

From an Ancient Tale

Human civilization has gone through many cycles of evolution, growth and destruction - but throughout it all 'A body of Knowledge' has always been preserved, withheld and sought by a select group of beings - the secret of Life Renewal and Eternal Life. In the 16th Century Ponce de Leon was sent by the Spanish King to question the Caribbean Indians about more treasures; while doing so he heard from them of the existence of a wonderfully rich set of Islands, where people never aged; the reason being they said, that *in one of these islands live people who never age because therein flows a spring whose waters have the power to restore youth.* The Spanish conquistadors searched and searched for the said spring but never found it, so The Fountain of Youth became a Legend.

So, when Dame Ysatis De Saint-Simone started her rejuvenation work life-renewal was considered at best a Legend, and at worst inconceivable, although there are records as ancient as life itself in books of ancient wisdom about 'a Magic Cauldron of renewal,' of extraordinary people who were considered 'Demigods' for they were wise and didn't age the same way as others did, and of tales that point the way to a Wonderland where beauty, everlasting youth and eternal life are a reality. So, instead of disbelieving, Ysatis who believes that behind all legends there is an essential truth that we most find in order to profit from its legendary power, searched for *the how to make them true in herself* and she found It! The **NATURAL REJUVENATION** DVD offers to everyone part of her extraordinary findings.

'The Grail Knights live from the Power of a stone of the purest kind.

I will tell you its name. . .

*By its magic the wondrous bird, the Phoenix, becometh ashes,
and yet doth such virtue flow from the stone,
that afresh it riseth, renewed from the ashes aglow,
and the plumes that erewhile it moulted spring forth yet more fair and bright.*

*There was never human so ill that if one day he see It,
yet he dies not the day that he can gaze at the stone,
nor yet the week after, nor does his face become distorted,*

*His colour remains clear and pure
when he gazes daily upon the stone*

*as erstwhile in his best time as youth or maiden
If he gazed at the stone for two hundred years
Save that his hair may turn gray
Such force gives the stone to man
that his flesh and bones promptly become young again
And the stone is called The Grail.'*

Von Eschenbach's 'Parsifal'

In Egypt there are hieroglyphics that tell us of *Pthe*, who descended from the Heavens to craft the human body, and made it so that it would be a perfect vehicle for our soul to return to the realm of the Blessed.

The Mayans speak about *Itz*, a substance that comes out of the Heavens, a Cosmic Sap, the Life Force energy upon which the world is built.

Jesus the Christ, whose words have not been yet spiritually/scientifically Understood nor explained correctly, told us clearly, "*The Kingdom of Heaven* is within you.*" the word **Heaven'* in Aramaic means *'place within man where its elemental nature is raised to Divine Splendor.* With these words the Christ, Jesus is indeed telling us that there is an inbuilt technology within us that can raise us to Divine Splendor, and gradually become Light Beings able to cross over the mortal, human world to the Eternal, Divine Realm and become Immortal.

Did any preacher be it minister, or priest ever tell you what the word *'Heaven'* meant, the one word that gives its real power-sense to Jesus' words?

Jesus also spoke of a *'Fountain'* whose living waters could help us spring into eternal life. He said to the Samaritan woman:

"I will make a fountain of living waters spring out of its entrails and whoever drinks of the water shall never thirst again; but the same water shall become in him a well springing up into Eternal Life." Did any preacher be it minister, or priest ever tell you that Jesus is here talking about a biological process that can be awakened within us?

These *'living waters'* are probably, *'the Itz substance'* that the Mayans said came out of Heavens. And also the *'unidentified substance'* the Egyptians used to open *'a rusty valve'* that triggered the production of hormones from the now *'dormant pineal gland'* in most humans, but that is no doubt *one of* the glands that when awakened help to gestate our own non-molecular light body?

As I said before the popular legend of the Fountain of Youth started in the 16th Century when the King of Spain sent Ponce de Leon to Florida to find a rumored Fountain of Youth that the Caribbean Indians talked about. They were unsuccessful. . . So, the Fountain of Youth became just a legend. . . It could have remained a legend also for me, but i I remembered what was said of the Holy Grail *'that if one day anyone sees It, his appearance will stay the same as on the day he sees it.'* And instead of looking for it in Florida, I looked in the direction the words of the Master of Love were pointing at,

"I will make a fountain of living waters spring out of its entrails and whoever drinks of the water shall never thirst again; but the same water shall become in him a well springing up into Eternal Life."

Is there any doubt that he talking of the Fountain of Youth inbuilt within us? Is our body capable of manufacturing a substance that can renew our cells and rejuvenate us? The Master of Love and Essence of all Life, Science and legend tells us so.

These were valuable signs that pointed to. . . So, I followed them and looked at the direction they were pointing at, until I found *'The Fountain which gave life to this and all other Legends. . .'*

So, know that all of the information about rejuvenation there is, is not just Legends. . . Different branches of science now corroborate the words of Jesus and of these whimsical Legends, Dr. Charles Muses says:

"Actually our bodies are like fountains. The fountain has a shape only because it's being renewed every minute, and our bodies are being renewed. So we are standing waves; we are no exception."

Dame De Saint-Simone says: *"Years have passed since I started practicing the system I discovered, and time has proven to me that its practice is the greatest testimony of its effectiveness in maintaining peace of mind, optimal health and well-being in our bodies."*

She is not just talking. She is indeed the best testimony of the effectiveness of her Natural Rejuvenation system. Her radiant vitality, creativity and youthful presence speak for themselves. The **Natural Rejuvenation DVD** is one of the fruits of her findings and her offer to all others who want to live free of stress and rejuvenate in a natural way.
